

2018 Street and Alley Improvement Project

Water Service Interruption Notice

Friday, June 29th

9:00 am to 3:00 pm

As part of the 2018 Street project, the Contractor will need to shut off the water main on 9th Avenue for a portion of a day. The scheduled date and time are listed above.

Water service to your property will be shut off during this time.

You may want to store some water in advance for use during the interruption. PLEASE do not use your water system during the shut off period.

When water service is restored, there may be some air in the line and/or discolored water. Run your cold laundry tub faucet or outside water spigot until the water is consistent and clear.

If you have any questions regarding this notice or the proposed work, please contact the City's on-site project representative, Garey Pankonin, at **763-355-4380**.

We understand this construction will cause some inconvenience for the affected properties, and we appreciate your patience and cooperation as we work through this important project for the community.
